### Premium Wrapped Canvas (Gloss)

Zazzle's gloss canvas is made from an additive-free cotton-poly blend and features a special ink-receptive coating that protects the printed surface from cracking when stretched. Made with a tight weave ideal for any photography or fine art, our instant-dry gloss canvas produces prints that are fade-resistant for 75 years or more.

About the product:

Product was of good quality,

About the print:

Color of image was not what was printed out. Uploaded the image with embedded RGB profile and when I received the product it was unsat. Buyer beware. I will say that zazzle refunded my money in the form of a credit for purchase but I will not take a chance with canvas prints through zazzle again.

**About the product:**

Picture now hangs in a show and was the focus of much attention at the opening reception. When signing it I realized that the canvas was much coarser than other wrapped canvas I have used, although that could mean that it is better. That certainly did not change the fact that it is a wonderful print.. I wish it was offered as a .75" size.

**About the print:**

Placement of the design was perfect. I've just placed an order for 20 posters of different size and different paper - to use for samples and possible order as wrapped canvas., although I much prefer the thinner stretched canvases.

**About the product:**

I am 100% satisfied with our wrapped canvas print. It arrived in great condition, well wrapped and no damaged corners. I actually ordered it to put in a frame so I got the thinnest stretcher but you will be happy with the look if you just want the wrapped canvas on your wall. Appreciate the hanging wire on the back too.

**About the print:**

I feel the printing is high quality and really true to color - the photo looked exactly as I anticipated. We did start with a really good, high res photo taken by our professional photographer (yes we had license to print, make sure you do!), so be aware you are only going to get a print as quality as your image. Texture is perfect too - I have seen others that look like a printed photo heat applied to canvas to get the texture, this is not that style! Actually printed on the canvas, gives you a nice soft texture compared to photo paper but keeps the colors vibrant.

**About the product:**

This turned out well. It also came with the hook and wire already attached....a nice convenience. The quality is good. I got the smallest size, so I can't comment on whether or not the quality holds in the larger sizes, but in the small size, it is exactly what I expected and wanted.

Turned out exactly like the photo I submitted
