Inspire Your Imagination

iwata

Tradition, Innovation and Excellence

Our airbrush range is worthy of your attention:
it has been chosen by some of the top and renowned artists in the world.

Artists trust IWATA because they know they can find in our products
the quality they are expecting.

In order to help them express their ideas and emotions,
we produce and distribute the most innovative high quality airbrushes,
designed and tested by artists for artists.

While all Iwata products are designed and manufactured
to the highest standards without compromise,
each series has a distinct advantage for different types of applications.

Custom Micron

Absolute Precision for the Elite Professional

For the elite professional who demands precise and accurate control of very detailed spraying, the Custom Micron Series is built to be the "best of the best," hand-tested and adjusted by the world's leading airbrush technicians.

CM-C Plus

- 0.23 mm nozzle
- Using the same matched-head assembly as the other trusted Custom Micron airbrushes, the Custom Micron CM-C Plus has the same precise feel that's entirely unique to a Custom Micron airbrush
- A breakthrough technology, the Micro Air Control (MAC) Valve enables infinite control of the airflow at the head of the airbrush, which provides even more control of stippling, fine details and finely atomized background spraying
- The new solvent-proof Teflon™ needle packing allows for the use of automotive or other solvent-based paints
- The funnel shape of the redesigned gravity-feed cup lets the airbrush be used effectively with only a couple of drops of paint, ensuring a fast and thorough clean up
- A cutaway handle enables users to grab the needle-chucking nut and quickly pull back the needle to flush paint out of the cup and paint passageways for a quick and easy clean up

CM-C

- 0.23 mm nozzle
- Ideal for professional use where heavier paints are required or when larger work is being created
- The Iwata Custom Micron matched-head system ensures superior atomization
- Features a larger 1/3 oz. (9 ml) gravity-feed color cup for working with large volumes of paint

Custom Micron Head System Superb Performance

The unique feature of the hand-matched head system means all of the parts in the head are assembled, tested and adjusted until the spray characteristics are as perfect as an airbrush can be. Available only as a set, the head systems can be interchanged for maximum reliability and ultimate performance. Spare head systems can be purchased to ensure the Custom Micron will always spray to its fullest potential.

The unique test spray pattern is included with all Custom Micron Series and High Performance Series Airbrushes.

13407500

CM-B

- 0.18 mm nozzle
- The smallest nozzle and needle combination for the most precise and accurate control of detail spraying
- Features a 1/16 oz. (1.8 ml) gravity-feed cup that cleans quickly for rapid color changes
- A highly polished, hardened stainless-steel needle provides an exceptionally smooth transition from detail to mid-range spraying

13407510

CM-SB

- 0.18 mm nozzle
- The same features of the Custom Micron B except it has a 1/8 oz. (3.5 ml) side-feed cup, which is engineered for right- and left-handed use
- Because it is side-fed, a view directly over the top of the airbrush allows for up-close, fine detail work
- For larger artwork, the Custom Micron versatility is enhanced by an optional 1/4 oz. (7 ml) side-feed cup, 1/2 oz. (14 ml) gravity-feed cup or a 1 oz. (28 ml) siphon bottle

Featuring the ultimate in air control directly at the nozzle with Iwata's new Micro Air Control (MAC) Valve Technology, the Hi-Line Series is designed for artists who need extreme control of detailed spraying. The Hi-Line Series is now made with Teflon needle packing, a dual-purpose cutaway, pre-set handle and one-piece auxiliary lever/needle chucking guide.

HP-AH

- 0.2 mm nozzle
- Larger threads on the nozzle offer a more secure fit and better centering of the nozzle on the body
- Sprays with one drop of paint in its 1/32 oz. (0.9 ml) fluid cavity

13409000

HP-BH

- Like the HP-AH, it has a 0.2 mm nozzle but has a larger 1/16 oz (1.8 ml) cup for holding more paint
- The gravity-feed cup features a smooth inside taper that provides for a quick and easy clean up

13409010

Micro Air Control (MAC) Valve

A breakthrough technology, the Micro Air Control (MAC) Valve enables infinite control of the airflow at the head of the airbrush, which is different than just regulating the air pressure at the compressor.

- Lets users spray a coarse stippling effect to full atomization with a quick turn
- For fine line or detailed work, it can be adjusted to create the optimum airflow for maximum control of the paint output
- By fully opening the MAC Valve, the airbrush can quickly be cleaned during color changes or for wide background spraying

HP-CH

- Features a 0.3 mm nozzle and a large 1/3 oz. (9 ml) tapered gravity-feed cup
- The larger nozzle and needle makes this an ideal airbrush for spraying a variety of paints from watercolors to solvent-based automotive paints

13409020

HP-TH

- 0.5 mm nozzle
- With both round and flat patterned aircaps
- Teflon needle packings
- Large, 1/2 oz. (14cc) removable gravity-feed fluid cup
- MAC Valve (Micro Air Control)
- Spray-gun trigger design
- Pre-set handle

13408380

iwata

High Performance

High-Precision, High-Detail Work

plus

Renowned as the professional's workhorse, the popular High Performance Series has just been pumped up with these inspired new features: Teflon™ needle packing, a dual-purpose, cutaway and pre-set handle and a one-piece auxiliary lever/needle-chucking guide.

13407290

HP-A Plus

- Features a 0.2 mm nozzle and needle combination for high-precision, detailed spraying
- The 1/32 oz. (0.9 ml) fluid cavity is perfect for spraying small amounts of media in a small area

13409540

HP-B Plus

- 0.2 mm nozzle
- Similar to the HP-A Plus except with a larger 1/16 oz. (1.8ml) gravity-feed color cup

HP-BC Plus

13407620 (ø 0.3 mm)

13407270 (ø 0.4 mm)

- A high-detail, high-precision, bottom-feed airbrush for artists who need quick color changes with a certain set of colors
- Similar in spray characteristics and needle/nozzle size to the HP-C Plus, it has very good atomization and is extremely reliable

High-Performance Assembly

Each nozzle is precisely made on the industry's most sophisticated machinery. They are hand tested to assure accurate control and fine atomization of the spray, and they are self-sealing, which eliminates the need for messy sealers. Unlike conventional brass nozzles, steel alloys are more durable and resist damage from harsh chemicals.

13407570

HP-SB Plus

- 0.2 mm nozzle
- Similar to both the HP-A Plus and HP-B Plus, except that it has a 1/8 oz. (3.5 ml) side-feed color cup
- Side-feed cup allows for right or left-handed use, and for slower detail spraying and better vision of the work surface
- Optional 1/4 oz. side-cup, 1/2 oz. gravity cup or a 1 oz. siphon bottle add to the versatility of this airbrush

13407550

HP-C Plus

- 0.3 mm nozzle
- A practical choice for most airbrush uses
- Its larger 1/3 oz. (9 ml) gravity-feed cup and larger (0.3-mm) needle/nozzle configuration allow for use with most media
- An airbrush that does it all - from fine hairlines to finely atomized background spray, along with an entire range of stippling effects
- The gravity-feed cup is useful for mixing custom colors and allows for quick color changes
- Short paint passageway from the cup to the front of the airbrush gives it a responsive feel and allows it to be one of the quickest airbrushes in the industry

iwata Eclipse

Ultimate Versatility, Reliability and Performance

The multi-purpose, high-paint-flow, high-detail airbrushes of the Eclipse Series cover a wide range of uses. Commonly used to spray premixed or heavier paints, they are well suited for uses demanding precise control of spray when applying moderate-to-large amounts of paint to a variety of surfaces and to various-sized areas. The Eclipse Series has established a new benchmark for excellence in an all-purpose airbrush.

13402010

HP-CS

- Gravity-feed airbrush features a unique 0.3 mm needle and nozzle combination for fine-detail spraying, but with high-paint-flow capacity
- Generous 1/3 oz. sized cup is designed with a new funnel shape, which makes for easy clean up and more efficient paint flow
- Automotive artists, fine artists and students will appreciate how well the Eclipse CS sprays heavier acrylics and Medea Textile Colors, while maintaining high-detail spray characteristics

13402020

HP-SBS

- Side-feed airbrush features a 0.3 mm needle and nozzle combination with the option of four cup sizes - the standard 1/8 oz. side cup, a 1/4 oz. side cup, a special 1/2 oz. gravity-feed side cup or a 1 oz. siphon-feed bottle
- Ideal for custom automotive graphics and murals, as well as for fine-arts work that requires custom color mixing and thicker paints
- The Auto-Graphics version of the HP-SBS is similar to the standard HP-SBS except it comes with a large 1/2 oz gravity-feed cup and a 1 oz. siphon-feed bottle

A unique "Pistol Grip" airbrush, the Eclipse G6 airbrush looks like a miniature spray gun, but sprays and performs like a large airbrush with its 0.6-mm stainless-steel nozzle.

- Equipped with a long tapered needle that ensures a smooth transition between fine-to-wide background spray
- Utilizes a dual-purpose air cap and a fan adjustment valve that lets the airbrush spray a round or oval pattern
- The round pattern is useful for painting graphics, while the oval shape creates a smooth background spray
- Uses a special fitting so airbrush bottles can be used instead of a gravity-feed cup, allowing for multiple color bottles to be interchanged quickly without having to clean a cup thoroughly (another unique feature for this type of spray unit) optional gravity-feed cups available
- Works well with the Iwata Studio Series Power Jet and Power Jet Lite Compressors

G6

13409660

13407210

HP-BS

- Gravity-feed airbrush features a 0.3 mm needle and nozzle combination with a convenient 1/16 oz. sized cup
- The improved funnel design of the cup makes for easy clean up and more efficient paint flow
- Ideal for nail and beauty applications

13402000*

HP-BCS

- Bottom-feed airbrush features a 0.5 mm needle and nozzle combination
- Sets the industry standard for high-performing, general-purpose, high-paint-flow airbrushes
- Versatile, reliable performance - this airbrush does it all
- 1 oz. (28 ml) suction feed bottle (included)

* the image refers to HP-BCS + VIM4802 (2 oz) jar

iwata *Revolution*

Quality, Performance and Value

Start off airbrushing with the industry leader - Iwata. Made for users at all levels, the Revolution Series features top-of-the-line airbrushes at great value. With breakthrough technology and performance, these airbrushes outperform all others in their price range.

13409670

HP-AR

- 0.3 mm nozzle
- A gravity-feed airbrush designed for quick changes of custom mixed colors
- Versatile for moderate detail to background spraying
- Perfect for general-purpose art-and-craft projects, as well as model-railroad detailing, R/C car bodies, plastic kits and automotive painting

13409690

HP-BR

- 0.3 mm nozzle
- A gravity-feed airbrush designed for quick changes of custom mixed colors
- Versatile for moderate detail to background spraying
- Perfect for general-purpose art-and-craft projects, as well as model-railroad detailing, R/C car bodies, plastic kits and automotive painting

13407100

HP-CR

- 0.5 mm nozzle
- A gravity-feed airbrush designed for quick changes of custom mixed colors
- Versatile for moderate detail to background spraying
- Perfect for general-purpose art-and-craft projects, as well as model-railroad detailing, R/C car bodies, plastic kits and automotive painting

13407120

HP-SAR

- 0.5 mm nozzle
- A breakthrough in single-action airbrush design
- Built with the same quality and performance as the dual-action airbrush
- Perfect for those seeking high performance in a single-action design

13409710

HP-TR1

The HP-TR1 (0.3 mm) comes with a 1/4 oz. side-mount color cup, while the HP-TR2 (0.5 mm) sports a 1/2 oz. side-mount cup.

- Ergonomic, balanced handle makes for easy, level spraying.
- The FA450 Pistol Grip Filter can be used with the 1oz. and 2oz. side-mount bottle sets (sold separately).

13409720

HP-TR2

The HP-TR1 (0.3 mm) comes with a 1/4 oz. side-mount color cup, while the HP-TR2 (0.5 mm) sports a 1/2 oz. side-mount cup.

- Ergonomic, balanced handle makes for easy, level spraying.
- The FA450 Pistol Grip Filter can be used with the 1oz. and 2oz. side-mount bottle sets (sold separately).

13407110*

HP-BCR

- 0.5 mm nozzle
- A bottle-feed, dual-action airbrush for general-use spraying
- Siphon-feed model makes it easy to swap bottles of specific colors quickly
- Useful for T-shirt painting, model-railroad landscapes, R/C car painting, airplane models and other general art hobby and craft projects
- 1 oz. (28 ml) suction feed bottle (included)

* the image refers to HP-BCR + VIM4803 (3 oz) jar

iwata COMPRESSORS

Now available for the beginning or casual airbrush user, Iwata Studio Series Compressors utilize the latest technology to fulfill your every airbrushing need.

It has never been easier to start with Iwata since all Studio Series Compressors are sold complete with fittings, filters, airhoses and an adapter to fit any airbrush.

Intelligent Power: Featuring Iwata's Smart Technology, the Smart Jet Pro compressor is perfect for the occasional and professional artist doing general airbrush applications.

It's powerful, compact, reliable and quiet.

15956100

IS 875 SMART JET PRO

- Zero-maintenance, oil-less piston air compressor
- Built-in airbrush holder
- Protective Outer Case
- Moisture filter with Air Regulator and Gauge (also prevents pulsation)
- Bleed valve adjustment to release moisture
- High-strength polyurethane hose fits Iwata airbrushes
- On/off switch
- Size: 10.5 x 12 x 6 in. (26.5 x 31 x 15.5 cm)
- Smart Jet Technology

15956190

IS 850 SMART JET

- Zero-maintenance, oil-less piston air compressor
- Built-in airbrush holder
- Extra hose for enhanced moisture separation
- Moisture filter also prevents pulsation
- Mounted air pressure gauge
- Bleed valve airflow adjustment to lower air pressure
- High-strength polyurethane hose fits Iwata airbrushes
- On/off switch
- Size: 10 x 7 x 6 in. (25 x 18 x 16 cm)
- Smart Jet Technology

Smart Jet Technology

- Compressor shuts itself off automatically when not in use
- Less heat-related moisture build-up
- Produces full-capacity air on demand
- Reduces running time
- Less motor wear means longer compressor life
- Inherently quieter in public environments

15956440

IS 50 SILVER JET

Powerful, compact, reliable and quiet, the Silver Jet is a single-person, light-duty, entry-level compressor. It features working pressure adjustable from 10-18 psi, perfect for cosmetics, tanning, hobbies/models, fingernail painting, bakery and general airbrushing. The Silver Jet includes a coiled airhose, Iwata Pistol-Grip Filter, pressure adjustable knob, handle, airbrush holder, pressure gauge and convenient airhose connector.

Featuring the powerful twin-pump, 1/6 Hp motor, the Power Jet Pro compressor is equipped with twice the features of the Power Jet Lite like two air pressure regulators for precise adjustment of airflow at two individual workstations.

Built with Iwata's Smart Technology, it automatically shuts off when not in use. Economically priced, the Power Jet Pro has a 2 litre tank reservoir and delivers all the power necessary for use with the high-paint-flow, multi-purpose Iwata Eclipse airbrush and the new Eclipse G6 pistol grip airbrush. Like all Iwata Studio Series compressors, the Power Jet Pro comes complete with an airhose and adapters so it can hook up to any brand of airbrush.

15956360

IS 975 POWER JET PRO

- 2 litre air storage tank
- Zero pulsation
- Air reserve for spraying at higher air pressures
- Typically, stored-air normally cools, which is better for maximum moisture separation
- DUAL Adjustable pressure regulators
- DUAL Moisture filters
- DUAL Mounted pressure gauges
- DUAL Quick disconnect ports
- DUAL Built-in airbrush holders
- Strong protective outer case
- Size: 13 x 9 x 7 in. (33 x 23 x 18 cm)
- Weight 26.5 lbs. (11.9 kgs)
- Smart Jet Technology
- 2X Sprint Jet Power

15956130

IS 925 POWER JET LITE

- Adjustable pressure regulator
- Moisture filter
- Strong protective outer case
- Built-in airbrush holder
- Size: 10.5 x 12 x 6 in. (26.5 x 31 x 15.5 cm)
- Smart Jet Technology
- 2X Sprint Jet Power

2x Sprint Jet Power

- Zero-maintenance, oil-less piston compressor
- Powerful 1/6-hp motor
- Airflow 1.2 CFM (34pmM)

ACCESSORIES

Crystal Clear Bottle Sets (for wb paints only)

VIM4501	Crystal clear cylinder 1 oz - 28 ml
VIM4501P	Crystal clear cylinder 1 oz - 28 ml

Cobra Coil Airhoses

- 13409030 HPA CH 41 Coil type air hose (1/8 - 1/8)
13409080 HPA CH 32 Coil type air hose (1/4 - 1/8)

Straight Shot Airhoses

- 13409430 HPA CH 31 Straight air hose (1/8 - 1/8)
13409090 HPA CH 32 Straight air hose (1/4 - 1/8)

Nylon-Covered Braided Airhoses

- 13409520 HPA BH 32 Braided hose black (1/4 - 1/8)
VIMBT010 Nylon covered braided air hose 10' (1/4 - 1/8)
VIMBT050 Nylon covered braided air hose 10' (1/4 - 1/4)

Airbrush Holders

- 13409070 HPA-H2 Coil airbrush hanger
VIM49024S Deluxe airbrush holder with regulator bracket

Airbrush Cleaning Pot (for easy cleaning and colour change)

- 13409890 HPA-ACP Airbrush Cleaning pot

Airhoses quick disconnect adaptors

- 13409470 HPA-J1 Airbrush joint 1/8F - 1/4M
13409480 HPA-J2 Airbrush joint 1/4F - 1/8M
13409060 HPA-QJP quick joint (male + female)
13409450 HPA-QJP3 Male plug 3PCS/PACK
VIM0105 Airhose joint set (brass)

Multiple-Valve Assemblies

- VIM012004 2-way valve assemblies
VIM012005 3-way valve assemblies
VIEU64103R 2-way valve - T joint MFM 1/4

Air Filters and Regulators

- 13409510 HPA-FR Airbrush filter regulator
13409810 HPA-R Airbrush regulator
VIMFA450 Pistol grip moisture filter
VIMFA500 Moisture filter
VIMFA600 Moisture filter with regulator and gauge
VIMFA700 Pressure regulator and gauge

Airbrush Cleaners and Lubricant

- VIM650004 Airbrush cleaner 4 oz / 112 ml
VIM65008 Airbrush cleaner 8 oz / 224 ml
VIM650016 Airbrush cleaner 16 oz / 448 ml
VIM650032 Airbrush cleaner 32 oz / 896 ml
VIM15001 SUPER LUBE lubricant 1/2 oz / 14 ml

Air Blast Canned Air

- Ozone-safe, ultra pure, non-toxic and non flammable
VIM020010 6 oz. AIRBLAST Starter canned air (45 bottles per case)
VIM020014 14 oz. AIRBLAST Jumbo canned air (12 bottles per case)
VIM020100 AIRBLAST Regulator Adaptor

Freehand™ AIRBRUSH TEMPLATES

SOLVENT PROOF!
EASILY USED WITH WATER-BASED
AND SOLVENT-BASED PAINTS.

The Artool™ Freehand™ Airbrush Templates are a real asset to anyone who uses an airbrush. These SOLVENT PROOF templates can be easily flexed or curved around irregular shaped surfaces and cleaned with solvents without being damaged. Delineate shapes by matching the contours of the Freehand™ Airbrush Templates with the subject matter. Simply rotate or flip-flop the Freehand™ Airbrush Templates to find the shape that works best or raise the template slightly to create a soft edge. However you use these templates, you're sure to create something great!

ACCESSORIES

ARTIST BRIDGE

Patent No. D368,929

Made in U.S.A.

The Ultimate Bridge for Painting, Drawing, Airbrushing and More!

With the non-flexing Artist bridge you will never smear or smudge your artwork again because you are always resting an 1/8" above your work. You can control all soft and wet mediums with confidence, whether rendering details or cutting in accurate line work. Use paintbrush, pastels, charcoal, markers or airbrush with professional results every time!

VIMCRM12 Cutting Rail Metric 30 cm

VIMCRM24 Cutting Rail Metric 61 cm
VIMCRM36 Cutting Rail Metric 92 cm

CUTTING RAIL®

Patent No. D360,149

Cut Straight and Safe!

Thanks to the patented raised-edge design, the Cuttingrail® prevents sharp blades from hopping over the top and cutting your fingers. The non-slip backing locks onto any surface for extra protection and safety. Cut sign vinyl, paper, board, frisket or textiles the safe way!

Double-Colored and Translucent CUTTING MATS

Double-Colored and Translucent Cutting Mats

The Artool™ Cutting Mats are the most flexible cutting mats on the market today because they're made of a new, 3-ply high-tech polymer material. Constructed with a self-healing surface, Artool™ Cutting Mats are extremely durable and hold up under repeated use with art and mat knives or rotary cutters.

If an Artool™ Cutting Mat should become bent or distorted, simply heat it in sunlight or hot water until it becomes pliable and then lay the mat flat.

HOT MATZ™

GET 2 COLORS IN 1 HOT MAT!

Hot Matz

Put some color in your life with our exciting new collection of Artool™ Hot Matz™. Spice up the look of your art/design studio or work area with your choice of six hot colors - Purple/Pink, Blue/Green or Red/Orange.

These quality self-healing mats come in two handy sizes: 8.5" x 12" and 12" x 18".

VIMFFCMA4PP Purple/Pink 22 x 30 cm
VIMFFCMA3PP Purple/Pink 30 x 45 cm
VIMFFCMA4BG Black/Green 22 x 30 cm
VIMFFCMA3BG Black/Green 30 x 45 cm

VIMFFCMA4RO Red/Orange 22 x 30 cm
VIMFFCMA3RO Red/Orange 30 x 45 cm

Artmask™

Adhesive-Backed Masking Film

STRETCHmask™

Adhesive-Backed Masking Film

Medium-tack adhesion to non-porous surfaces
 Won't wrinkle, bleed or flutter under airbrush spray
 Won't lift up paint when removed and/or repositioned
 Solvent proof - Can be used with water-based and solvent-based paints.

Excellent for fine artists, auto graphics painters, sign painters, hobbyists, modelers, sculptors and general airbrushers.

VIMF201 Artool Art Mask 18" x 10 yds
 VIMF202 Artool Art Mask 18" x 25 yds

VIMF101 Artool Stretch Mask 18" x 10 yds
 VIMF102 Artool Art Mask 18" x 25 yds

Hobby Mask™

Adhesive-Backed Masking Film

Protecting clear parts

Aircraft canopies: mask the glass, paint the frame
 Scale autos and trucks: cover windows and lights
 RC cars: mask the windows and paint it up

Doing camouflage

Aircraft: splinter and modern geometric designs
 Armor: WWII and modern
 Ships: hull patterns

Doing panel accents

Aircraft: weathering new and old panels
 Armor: replacement patterns
 Sci-Fi vehicles: federation and Aztec patterns
 Railroad: weathering accents, new and old panels

Doing striping

Cars and trucks: racing and accent stripes
 Aircraft: airline markings, invasion stripes
 Ships: waterline, deck markings

VIMHM1 Artool Hobby Mask 6" x 10 yds

FRISKETFILM

FOR AIRBRUSHING, MASKING AND STENCILING

 VIMF405 Gloss film 15" x 10 sheet 10/8 sheet packs
 VIMF406 Gloss film 24" x 20 sheet 5/10 sheet packs

ULTRA MASK

Tinted film for easy reference and workability
 Low tack WITH secure adhesive
 STRENGTH (SAFE FOR artwork)
 Maximum stretch for irregularly shaped surfaces
 SOLVENT PROOF!

VIMF501 Ultramask 24" x 5 yds
 VIMF502 Ultramask 24" x 10 yds

COM•ART

colours

for Airbrush & Paintbrush

Not all airbrush colours are the same. Com-Art is considered to be one of the finest and most versatile professional airbrush colours in the world. Because of a common hydro-carbon base binder, Com-Art transparent and opaque colours can be used together without bleeding between colours. This non-toxic, ready to use paint is specifically formulated for use with an airbrush and never needs to be filtered or strained. Com-Art colours are heavily pigmented and light fast, allowing for accurate 4 colour separations. They provide superior atomization, smooth spraying, and they dry instantly.

- VIM52131 Photo White 1 oz (28)

Medea Textile Colours by Jürek feature a new, more versatile formulation. This allows for spraying on a variety of surfaces, including leather, wood, canvas, textiles, silk and found objects. Now the improved formulation even sprays great on hard surfaces such as license plate tags, metals, plastics and more! Use Medea topcoat (waterbased polyurethane) for a final durable finish.

Their free-flowing brilliance and their non-clogging nature are due to the finest ground pigments and a special additive called the "Lube." The "Lube" provides an exclusive wetting agent and a flow enhancer that allow four hours of hassle-free spraying. Additionally, the flow enhancer breaks down the surface tension of the paint, resulting in better fabric absorption (when applied to textiles) for greater washability and wear.

NAIL MASTER COLORS

Quick drying, waterbased colors specifically formulated for airbrush nail-art applications
NAIL MASTER COLORS are designed for smooth spraying and even coverage for creating
all of the popular nail-art designs and one color applications.

The complete set of French Manicure Finishing Colors
allows you to create all of the popular French Manicure designs.

Body - Art

The airbrush has become a significant tool for progressive beauty professionals. It is commonly used in the film industry and is now finding a home in the modern make-up artist's repertoire, creating flawless glamour looks on all skin types, including difficult complexions.

Transform your body into a work of fine art.

- Airbrush Body Paints and Stencils for professional, highly realistic "tattoo" look or fantasy fine art.
- Choose from a selection of 15 Airbrush Body of Art Colors.
- Select from an array of over 40 self-adhesive, reusable stencils.

Blend colors, overlap designs,
be artistic and creative

SPRAY GUNS FOR MODERATE TO MAMMOTH PROJECTS

ANEST IWATA, the world leader in industrial spray painting technology, offers a complete selection of conventional and HVLP models.

Auto-graphics artists, auto-body refinishers, custom-auto painters, large-scale mural and sign makers, general-purpose painters and artists commonly use Anest Iwata spray guns for everything from detailed touch-up to large-scale production spraying.

Whether you're a fine artist, production artist or a body-shop painter, ANEST IWATA has a spray gun for your every need – one that's ideally suited for spraying gesso, varnishing paintings, murals, backgrounds, custom automotive painting, rendering signs or whatever broad surfaces need to be covered.

These guns spray high-viscosity paints – including metallics – with ease.

LPH 80

- Compact spray gun spot repair
- 0.4 - 0.6 - 0.8 - 1.0 - 1.2 mm nozzle
- Air consumption 60 l/min at 1.0 bar
- Compact and lightweight only 205 g
- Fine atomization
- Suitable for solvent and water based paints
- Can be used with both 70 cc and 250 cc gravity cups

LPH 400

- High performance center gravity fed LVL P spray gun with low air consumption and superior atomization
- 1.2 - 1.3 - 1.4 - 1.6 - 1.8 mm nozzle
- Patent split nozzle
- Air consumption 270 l/min at 1.1 bar
- Compact and lightweight only 380 g
- Fine atomization
- Suitable for solvent and water based paints

W 400 WB

- 1.0 - 1.2 - 1.3 - 1.4 - 1.6 mm nozzle
- Specially designed for atomising water based coatings, this spray gun also allows a very fine atomisation of solvent based paints, with an exceptionally High Transfer Efficiency according to European legislation.
- Air consumption 280/390 l/min at 1.8 bar
- Transfer efficiency minimum 65%
- Only 380 g body weight

MIX&SPRAY Cup Rigid Gravity Cup System

- Environmentally friendly.
- Only one container for Mixing and Spraying.
- Graduated Mixing Cup.
- Minimum use of v.o.c. required.
- Maximum speed of paint preparation.
- The only disposable cup approved for use with ANEST IWATA and AIR GUNSA Spray Guns.
- No change of fluid output due to the special air valve.
- Anti drip system.
- Very low cost.
- Save on cleaning time and cleaning materials.
- Recyclable or reusable.
- No waste of paint inside the cup at the end of paint spraying thanks to the smooth inner surface.

Blank = Not Recommended

ANEST IWATA WARRANTY

Airbrushes

An unprecedented five-year warranty backs all Iwata airbrushes and spray guns. All Iwata airbrushes are warranted against all manufacturing defects of material and manufacture or workmanship for a period of FIVE years from date of purchase.

Any part or material that is or becomes defective so as not to be usable within this period will be repaired or replaced.

This warranty does not cover damage caused by negligence or units that have been altered or abused in any way.

**Needles and Nozzles need to be replaced from time to time due to ordinary wear and are not covered by the above warranty.*

Compressors

All Iwata air compressors are warranted against all manufacturing defects of material and manufacture or workmanship for a period of ONE year from date of purchase. Any part or material that is or becomes defective so as not to be usable within this period will be repaired or replaced. This warranty does not cover damage caused by negligence or units that have been altered or abused in any way.

Repairs & Cleaning Policy

Anest Iwata Europe s.r.l. offers repair and cleaning services for all Iwata airbrushes. The following options are available to assist customers in getting the highest quality service available.

1. E-mail Technical Support: offers technical support over the e-mail. This service includes general usage information, cleaning tips, and troubleshooting. Please mail to: tech.service@airbrush-iwata.com
2. Cleaning & Repair Service: For a fee of € 20,00 Anest Iwata Europe professional technician will repair, clean, lube and test your Iwata airbrush. There is an additional charge for any needed replacement parts.

NOTE: All airbrushes returned for repair must have a Return Authorization Number.

Please send an email to tech.service@airbrush-iwata.com to obtain an RA number, instructions, and our shipping address.

**Needles and Nozzles need to be replaced from time to time due to ordinary wear and are not covered by the above warranty.*
